

Early Elementary Addition

Math Mini Course – Online (1 Year)

Grades
1st – 3rd

What is it?

Math Mini Courses Online from A+ Interactive Math are **affordable and excellent way to close learning gaps** in particular areas of Math where students may have weakness. Each mini course covers a logical group of specific math concepts from several grade levels. It offers an in-depth review of math concepts from a very basic to a more advanced level. Mini Math courses help build a strong foundation in Math by providing students with consistent review of the specific areas in which they're weak.

Math Mini Courses Online Include,

- Multimedia Lessons that teach math concepts with fun, colorful and engaging computer animated video lessons, audio and text.
- Interactive Review for each lesson that helps students/parents identify and close learning gaps.
- Worksheets that provide extra practice to help master each math concept.
- Automatic grading and tracking with easy-to-read progress reports.
- Solution Guides that provide detailed step-by-step solutions with visuals to each problem on worksheets.
- Full text versions of lessons that provide additional flexibility for those who like to read through the lessons.
- Printable worksheets and tests for practice offline.

What Would My Student Learn?

The main subject areas covered are:

- 1.1 Introduction to Addition
- 1.2 Addition Using Objects
- 1.3 Addition Using an Addition Table
- 1.4 Addition Using Regrouping
- 1.5 Find 10 More
- 1.6 Commutative Property of Addition
- 1.7 Associative Property of Addition
- 1.8 Additive Identity Property of Addition
- 1.9 True or False
- 1.10 Find the Missing Number
- 1.11 Addition without Carrying Numbers (Optional)
- 1.12 Addition with Carrying Numbers
- 1.13 Adding a 2-digit Number and a 1-digit Number
- 1.14 Adding a 2-digit Number and a 2-digit Number
- 1.15 Adding a 3-digit Number and a 2-digit Number
- 1.16 Adding a 3-digit Number and a 3-digit Number
- 1.17 Adding 3 Number Sets
