

What is it?

Math Mini Courses Online from A+ Interactive Math are **affordable and excellent way to close learning gaps** in particular areas of Math where students may have weakness. Each mini course covers a logical group of specific math concepts from several grade levels. It offers an in-depth review of math concepts from a very basic to a more advanced level. Mini Math courses help build a strong foundation in Math by providing students with consistent review of the specific areas in which they're weak.

Math Mini Courses Online Include,

- Multimedia Lessons that teach math concepts with fun, colorful and engaging computer animated video lessons, audio and text.
- Interactive Review for each lesson that helps students/parents identify and close learning gaps.
- Worksheets that provide extra practice to help master each math concept.
- Automatic grading and tracking with easy-to-read progress reports.
- Solution Guides that provide detailed step-by-step solutions with visuals to each problem on worksheets.
- Full text versions of lessons that provide additional flexibility for those who like to read through the lessons.
- Printable worksheets and tests for practice offline.

What Would My Student Learn?

The main subject areas covered are:

- 1.1 Introduction to Multiplication
- 1.2 Multiplication in Relation to Addition
- 1.3 Multiplication Using Objects
- 1.4 Multiplication Using a Multiplication Table
- 1.5 Multiplication Tricks
- 1.6 Multiplying a 2-digit Number by a 1-digit Number
- 1.7 Multiplying a 3-digit Number and a 1-digit Number
- 1.8 Multiplying a 2-digit Number and a 2-digit Number
- 1.9 Multiplying a 3-digit Number and a 2-digit Number
- 1.10 Multiplying a 4-digit Number and a 2-digit Number
- 1.11 Multiplying a 5-digit Number and a 2-digit Number
- 1.12 Multiplying a 3-digit Number and a 3-digit Number
- 1.13 Multiplication with Three Numbers

The graphic features a dark red background with a yellow 'A+' logo in the top left. The title 'Elementary & Middle School Multiplication' is written in white. Below the title, there are several mathematical illustrations: a multiplication table, a diagram showing '2 * 3 = 6' with 'Factors' and 'Product' labels, a vertical multiplication problem '164 x 3 = 192', a horizontal multiplication problem '2 x 4' with three arrows pointing to '2 times 4' and '2 groups of 4', a diagram with two groups of four smiley faces, and two vertical multiplication problems: '29 x 15 = 435' and '329 x 15 = 4,935'. At the bottom left, there is a logo for 'A+ INTERACTIVE MATH' with the tagline 'A foundation you can COUNT on'.
