

NEW LOW Cost Math Curriculum Online

Curriculum eBook, Worksheets and Tests Online w/ Automatic Grading N Tracking

FAQs

Q1. Who should buy this LOW COST math curriculum?

- ✓ Parents who have very limited budget and looking for a solid, comprehensive and complete math curriculum for a low price.
- ✓ Parents looking to SAVE 2 to 3 hours of their valuable time each week by letting the program automatically grade and track student assignments (worksheets and chapter tests)
- ✓ Parents looking for a program that can create, assign, grade and track student progress so they DON'T have to do it manually.
- ✓ Parents who are willing to use the PDF lessons provided in the curriculum eBook to teach OR students who can read the lessons in eBook format to learn on their own. Video lessons that teach math concepts are **NOT** included in this low cost curriculum.
- ✓ Parents who want to **SAVE \$\$\$** by not having to print lessons and worksheets but like to have an option to print any lesson, worksheet or chapter test if needed.
- ✓ Parents looking for fun, colorful and engaging PDF lessons which makes teaching/learning Math a BREEZE!
- ✓ Parents looking to supplement their existing math curriculum to build mastery in math for their students.

Q2. What is the difference between this new low cost math program and other A+ Interactive Math program online (Single Grade Level and Family Math Packages)?

This NEW \$12 program is **NOT the same** as our other online math curriculum options such as Single Grade Level or the Family Math Package. This \$12 math curriculum is a NEW economical option for the families who are looking for a **solid math curriculum that does most of the work for them but have a shoe-string budget.**

This \$12 program **DOES NOT** include **Video lessons and interactive review.** Instead it includes the same lessons in curriculum eBook format which are fun, colorful and engaging with lots of visuals and easy to understand or teach. It also includes the worksheets for each lesson and chapter tests that can be **completed Online where it will be graded and tracked for you automatically.** This is a HUGE time saver. It could save you 2 to 3 hours each week. Also, included are the solution steps for each worksheet and test problems so students can check their own work – you don't have to show students how to arrive at the final answer. You can also print the worksheets or chapter tests if you like.

Because there are NO video lessons in this \$12 curriculum, you do have to teach using the PDF lessons but the PDF lessons are fun, colorful and engaging which makes teaching/learning Math a BREEZE!

If you already have a Math Curriculum, you can just use the automatically graded Worksheets and Tests Online to provide extra practice to master the math concepts. A HUGE TIME SAVER! A step-by-step solution is provided for each problem.

Also, each grade level is sold individually.

Q3. Why should I buy this new Low Cost Math Curriculum Online?

This is a solid, comprehensive and complete math curriculum for such a low price. This is really the cheapest math curriculum on the market today that does most of the work for you and saves to your valuable time since it automatically grades and tracks worksheets and tests online.

This is a perfect curriculum for those on a very tight budget. You do have to teach using the PDF lessons (as this option does not include the video lessons) but the PDF lessons are fun, colorful and engaging which makes teaching/learning Math a BREEZE!

Also, if you already have a Math Curriculum, you can just use the automatically graded Worksheets and Tests Online to provide extra practice to master the math concepts. A HUGE TIME SAVER! A step-by-step solution is provided for each problem.

Q4. Does this program include video lessons that teach math concepts?

This LOW cost math curriculum program **DOES NOT** include **Video lessons and interactive review**. Instead it includes the same lessons in curriculum eBook format which are fun, colorful and engaging with lots of visuals and easy understand or teach. It also includes the worksheets for each lesson and chapter tests that can be **completed online where it will be graded and tracked for you automatically**. This is a HUGE time saver and could save you 2 to 3 hours each week. Also, included are the solution steps for each worksheet and test problem so students can check their own work – you don't have to show students how to arrive at the final answer. You can also print the worksheets or chapter test if you like.

Because there are NO video lessons in this \$12 curriculum, you do have to teach using the PDF lessons but the PDF lessons are fun, colorful and engaging which makes teaching/learning Math a BREEZE!

If you already have a Math Curriculum, you can just use the automatically graded Worksheets and Tests Online to provide extra practice to master the math concepts. A HUGE TIME SAVER! A step-by-step solution is provided for each problem.

You may contact our sales team at sales@aplustutorsoft.com if you would like to upgrade to the curriculum with the video lessons and interactive review.

Q5. If I already have a math curriculum, why do I need this math curriculum? How can it help me in my homeschool journey?

This LOW cost math curriculum program is a solid, comprehensive and complete math curriculum. However, you do not have to use as the main curriculum. You can use it as a GREAT supplement to your existing math curriculum and save 2 to 3 hours of your time each week since it includes automatically graded worksheets and chapter tests which provide plenty of practice to build mastery.

Using automatically graded Worksheets and Tests Online is A HUGE TIME SAVER! Also, included are the solution steps for each worksheet and test problem so students can check their own work – you don't have to show students how to arrive at the final answer. You can also, print the worksheets or chapter tests if you like. If you need to go back and re-learn certain math concepts, you have easy access to PDF lessons.

Use it as a main and only math curriculum or as a supplement to your existing math curriculum – choice is yours!

Q6. Do I have to print the lessons and worksheets or can student do everything online?

This program is designed to SAVE you \$\$\$ and your valuable time – **NO printing necessary**. You can do everything online. The lessons are organized in a way where you can easily pull up any lesson on the computer screen from the Table of Contents. You DO NOT have to print the lessons. You can simply read through the lesson on the computer screen. The worksheets for each lesson and chapter tests can be done completely online meaning students put the final answer in the program and the program will grade and track the progress for you. No printing necessary.

This is what makes this program so economical – LOW cost & NO extra printing! However, if you prefer to have lessons, worksheets and chapter tests in print format, you may print them from the program. Or better yet, you may purchase the curriculum textbook and workbook which are available at affordable prices on our website www.aplustutorsoft.com. Buying the printed textbook and workbook is actually cheaper (in most cases) than you printing all of that on your own.

Q7. Can I print the lessons and worksheets for offline use?

Yes, this program includes lessons, worksheets and chapter tests in PDF format which can be printed for offline use. Each lesson, worksheet and chapter test must be printed individually.

However, we recommend using the worksheets and chapter tests online so that they are automatically graded and tracked for you. This will save you a lot of money in printing costs and time as all will be graded and tracked for you.

Q8. Can I upgrade to a program with video lessons?

Yes, after using this program if you decide to add the video lessons with interactive review, just contact us sales@aplustutorsoft.com. We will give you credit for this program towards our Single Grade Level Online (w/ video lessons) or the Family Math Package (w/ video lessons and access to all grade levels).

Q9. If I already have a math curriculum, can I use just the online worksheets and tests portion of the program to supplement my main math curriculum?

Yes, absolutely. You can use this program as a GREAT supplement to your existing math curriculum and save 2 to 3 hours of your time each week since it includes automatically graded worksheets and chapter tests which provide plenty of practice to build mastery.

Using automatically graded Worksheets and Tests Online is A HUGE TIME SAVER! Also, included are the solution steps for each worksheet and test problem so students can check their own work – you don't have to show students how to arrive at the final answer. You can also print the worksheets or chapter tests if you like. If you need to go back and re-learn certain math concepts, you have easy access to the PDF lessons.

Use it as a main and only math curriculum or as a supplement to your existing math curriculum – choice is yours!

Q10. Can I check my student's progress?

Yes, absolutely. You can login to the parent account and launch the math program. You will see an option to view student progress reports. They are easy to read and all done for you.

Q11. Can I or my student go back and review each completed assignments and see what questions he/she missed and how to do it correctly?

Yes. You or student can login to the respective account and launch the math program. You may bring up a list of all completed assignments and click on the appropriate one to open it in a review mode. You may navigate to each question and see if your answer was correct or not. If incorrect, you can even click on "View Detail Solution" button to see how to solve the problem correctly.
